

# MSD and YOU working together in our COMMUNITY!

**Learn. Share. Engage.** You are invited to a public meeting concerning projects in your neighborhood. Keeping rainwater out of the sewer system helps prevent sewer overflows into our local waterways and helps avoid backups into homes. MSD is working in your neighborhood to avoid these overflows of untreated sewage. We invite you to attend this informational session to learn what sewer overflows are, why they occur and how you can help lessen these overflows. MSD will be sharing plans and seeking your input concerning the I64 & Grinstead Storage Basin. We invite you to be a part of achieving clean, safe waterways for our community. Be a part of the solution by joining us at:

**Where:**                      **Louisville Collegiate School  
2427 Glenmary Avenue  
Louisville, KY 40204**

**When:**                      **Tuesday, September 16, 2014  
6:00 p.m.**

Although MSD encourages your attendance, questions and comments regarding sewer overflow abatement projects may also be submitted via email at [commentsIOAP@msdlouky.org](mailto:commentsIOAP@msdlouky.org).

Comments may also be mailed in hard copy addressed to:

**MSD IOAP Project Comments  
Attn: Infrastructure Manager  
700 West Liberty St.  
Louisville, KY 40203**

For additional information about this program, refer to the Project WIN website at [msdprojectwin.org](http://msdprojectwin.org).
