MSD will hold a Conceptual Design Meeting concerning the Portland CSO (Combined Sewer Overflow) Basin—a covered-underground basin—to be constructed in the Portland neighborhood.

502-540-6744

This meeting will provide you with information about the conceptual design phase of the basin, and offer you an opportunity for input and comments.

This basin project will greatly lessen the occurrence of combined sewer overflows—untreated sewage—entering our local waterways, and it will reduce flooding in the area during rain events.
